FEATURED SPEAKERS

Dr. Jason Fleming  Senior Member, Surgical Oncologist, and Chair of the Department of Gastrointestinal Oncology at Moffitt Cancer Center. His clinical activities and research focus exclusively on pancreatic cancer. He serves on numerous committees and was co-director of the PanCAN (Pancreatic Cancer Action Network) scientific and medical advisory board. His research in pancreatic cancer includes the development of new screening techniques in order to optimize medical treatment and prevent recurrence.

Dr. Herbert Zeh  Professor and Chair of the Department of Surgery at UT Southwestern Medical Center, Dallas Texas. He has published extensively on one of the world’s largest experiences with robotic pancreatic surgery and is considered a pioneer in this field. He also directs a translational research lab and is involved in a number of investigator-initiated clinical trials examining novel treatments for pancreatic cancer.

Dr. Eileen O’Reilly  Associate Director for Clinical Research, David M. Rubenstein Center for Pancreatic Cancer Research and Winthrop Rockefeller Chair of Medical Oncology at Memorial Sloan Kettering. Her research initiatives include integrating molecular and genetic-based therapies into the treatment of pancreas cancer as well as identification of biomarkers to be used to select therapy. She is the principal investigator of multiple pancreatic cancer clinical trials. She is viewed as an international expert in the field of medical oncology.

Dr. Jessica Frakes  Assistant Member in the Department of Radiation Oncology at Moffitt Cancer Center. She is an expert in advanced radiation techniques and her research interests including improving outcomes and decreasing toxicity in the treatment of gastrointestinal cancers.

Dr. Jenny Permutth  Assistant Member in Moffitt’s Departments of Cancer Epidemiology and Gastrointestinal Oncology. Her research centers on developing and implementing prevention, early detection, and treatment strategies to personalize care and improve outcomes for individuals affected by or at-risk for pancreatic cancer. One of her most recent achievements is establishing the Florida Pancreas Collaborative, a state-wide multi-academic cancer center partnership dedicated to conducting translational research to reduce disease burden and personalize care for those affected by pancreatic cancer.

Dr. Mokenge Malafa  Senior Member and Surgical Oncologist in the Departments of Gastrointestinal Oncology and the Chemical Biology and Molecular Medicine Program at Moffitt Cancer Center. His research interests focus on vitamin E signaling pathways in the prevention and treatment of pancreatic cancer. He serves on numerous committees and is the Vice Chair of the NCCN Pancreas Panel.

Dr. Jason Klapman  Senior Member and Medical Director of Endoscopy in the Gastrointestinal Oncology Department at Moffitt Cancer Center. He is nationally recognized for his focus on education and research in the area of advanced endoscopy. His research interests include early detection and screening of pancreatic cancer in high-risk individuals.

Dr. Dae Won Kim  Assistant Member and medical oncologist in the Department of Gastrointestinal Oncology. He is a clinician-scientist with a focus on novel therapies for advanced pancreatic cancer. He is currently the lead investigator on several clinical trials in pancreatic cancer at Moffitt Cancer Center.

Dr. Pamela Hodul  Associate Member and Surgical Oncologist in the Department of Gastrointestinal Oncology at Moffitt. She is Section Lead of the Pancreatic Oncology Division. Her clinical and research interests focus on nutritional and wellness activities related to pancreatic malignancies.

A Special thank you:

• To all of the volunteers participating in the Patient and Caregiver Wellness Symposium
• To the planning committee: Rosa Sanchez, Marlene Bishay, Laura Cooper, Dr. Sarah Hoffe
• To our Exhibitors and Sponsors for their support for this event.
